Year 5 · Number: Dollars, Cents and Change

Name: _____ Date: _____

Hi there! This sheet helps you add up money, work out change, and round dollar amounts. Grab a pencil and let's practise being a money whiz!

Warm-up

1. Write this amount using decimal notation: 6 dollars and 45 cents.

2. Write this amount using decimal notation: 12 dollars and 5 cents.

3. Add: $3.20 + $4.50.

4. Round $8.70 to the nearest dollar.

Practice

5. Add these three prices: $2.35 + $1.40 + $3.10.

6. Round each amount to the nearest dollar: (a) $5.30 (b) $11.85.

7. Mereana buys a pie for $4.60 and a juice for $3.25 at the Avondale dairy. What is the total cost?

8. Tane spends $6.40 on a comic. He pays with a $10 note. How much change does he get?

9. At the Sunday market Aroha buys apples for $3.75 and bread for $4.15. She pays with a $10 note. What is her total, and how much change does she receive?

10. A drink bottle costs $12.60. About how much is this to the nearest dollar? Then work out the cost of 2 bottles at the exact price.

Challenge

11. Sione has $20. He buys a school hat for $8.95 and a water bottle for $6.50. How much does he spend altogether, and how much change does he get from his $20?

12. Kaia is buying 3 muffins that cost $2.50 each. Estimate the total by rounding each muffin to the nearest dollar, then work out the exact total. How much smaller is the exact total than the estimate?
